

Pope Benedict XVI's Holy Land Visit To Be Broadcast via SatLink

SatLink To Follow Pope and Offer HD and SD Production and Transmission Services Throughout His Holiness' Visit to Jordan, Israel and Palestinian Authority

Jerusalem – March 30, 2009 – SatLink Communications Ltd. is offering television broadcasters from around the world the opportunity to follow Pope Benedict XVI in his travels through the Holy Land from May 8-15, 2009 with a full-array of HD and SD production facilities, live position set ups, SNGs and other services. From the Nativity Church in Bethlehem, The Annunciation Church in Nazareth, Mount Nebo in Jordan and The Church of the Holy Sepulchre in Jerusalem and other locations in the region, SatLink is providing fiber and satellite broadcast services and facilities for broadcasters and Internet news-sites from around the world.

SatLink is supplying comprehensive services and live facilities from Jerusalem, Amman, Bethlehem, Nazareth and the Galilee. These include studios, full High Definition and Standard Definition production services, HD and SD SNG vehicles, ENG services, and other technical arrangements, as needed. With over 20 years of experience, SatLink's staff is ready to serve the international broadcast community - directly from the Holy Land.

SatLink's strategic location in the Judean Hills facilitates transmission, international delivery via satellite and optic fibers to Europe, Asia and Africa. The company has dedicated fiber optic lines from its headquarters to North, Latin and South America as well as to the Pacific Rim, Australia and Asia. Among the World Teleport Association's (WTA) 'Independent Top Twenty' teleports, SatLink is recognized by its peers as a leading innovator in total global content distribution by providing the right solutions with the highest service level to satisfy clients' desires.
