

Production Services

Managed by staff with over 20 years of experience in providing comprehensive production solutions in Israel and the Middle East, Satlink Productions is committed to excellence. We offer a full range of products and services to meet all your production needs, from equipment rental and professional crews to sophisticated mobile satellite units that enable you to transmit your content straight to your viewers worldwide, 24/7.

Satlink Productions will provide you with the tips you need to know when coming to film in Israel. From renting a car to organizing insurance, we will support you every step of the way. We recommend ideal locations, what weather to expect, how to plan around the national holidays, where to eat / sleep and more.

Crews

Upon request, Satlink Productions will provide you with professional crew members of the highest distinction. We work with today's most experienced and talented camera crews, soundmen, lighting engineers, assistant producers, editors, makeup artists and more.

Just tell us your production services requirement, and we'll put together the team to match your production needs.

Studios

Situated in a complex that includes Israel's top production studios, Satlink Productions places the best studio facilities at your fingertips. Choose from 9 fully equipped digitalized television studios, ranging from 200 to 1,250 m2 in size, all with TV digital and analog cameras, sound control rooms, computerized lighting systems and control rooms.

Mobile Production Units

Satlink mobile production units offer you fully equipped mobile studios:

OB Vans - We provide Outside Broadcast (OB) vans that are fully equipped, mobile multi-camera production vans, enabling the rapid assembly of a fully-functional outdoor studio. for the coverage of your sports, news and special events. Our range of Outside Broadcast services caters up to 12-camera widescreen Digital Units, with Dolby and EVS facilities and experienced crew available.

SNG Vehicles - Satlink owns and operates a fleet of sophisticated Satellite News Gathering (SNG) units for the transmission of your live events via satellite from the field, 24/7, satisfying all of your satellite uplink (HD and SD) needs. From outdoor productions to sports and entertainment events, breaking news and other activities, we provide reporters and broadcasters with timely, online transmission from the place of the desired event.

HD and Digital Production Units

Satlink Productions provides High Definition Units that can be custom packaged to suit your specific shooting needs. Full units with lighting, sound and grip are available with superior technological features.

Religious Production Services

Satlink Productions offers you a complete solution for live broadcast from religious locations around the Holy Land. With a direct fiber connection from Satlink's premises to the two holiest churches - the Nativity Church in Bethlehem and the Annunciation Church in Nazareth - we transport live events via fiber and/or satellite. In addition, Satlink's production services provide live position and feed point.

Palestinian Authority Production Services

Through our extensive collaboration with our partners from Palmedia, Satlink Productions will assist with your pre-production planning and logistics in all major cities in the Palestinian Authority. We provide both indoor and outdoor studios with live feeds for all your production requirements. For news events, religious occasions and more, our highly trained staff will cater to your every need.
